Create the Local Group of the NGO in your country

- Act Yourself -

Publication date: Wednesday 14 September 2022

Copyright © Objectif Sciences International - All rights reserved

In order to allow you to create a local branch of the NGO Objectif Sciences International (OSI) in your country, we have set up a complete and detailed Roadmap.

This Road Map was set up in relation and in partnership with the Government Representations of your country, at the UN in Geneva, on the occasion of the [GENEVA FORUM](http://www.osi-genevaforum.org/) [http://www.osi-genevaforum.org/], and is based on our 30 years of experience in the field.

To access the content of the [roadmap located here](https://www.osi-ngo.org/agir-vous-memes/create-the-ngo-local-group-in-your-region) [https://www.osi-ngo.org/agir-vous-memes/create-the-ngo-local-group-in-your-region], please create your OSI account first [on this page](https://www.osi-ngo.org/spip.php?page=inscription) [https://www.osi-ngo.org/spip.php?page=inscription]

On this page you will find:

- the description of the steps you will have to take to move forward in the process and lead to a dynamic and autonomous OSI local group in your country
- the list of partners with whom we will put you in touch
- the project management tools that the NGO will make available to you
- the computer tools that the NGO will make available to you
- The list of international platforms to which you will have access, including the ones where you will be invited to go physically
